ABOUT ViriMASK™

When ViriMASK™ is used correctly, the wearer will feel no noticeable change in breathing ability nor in voice volume.

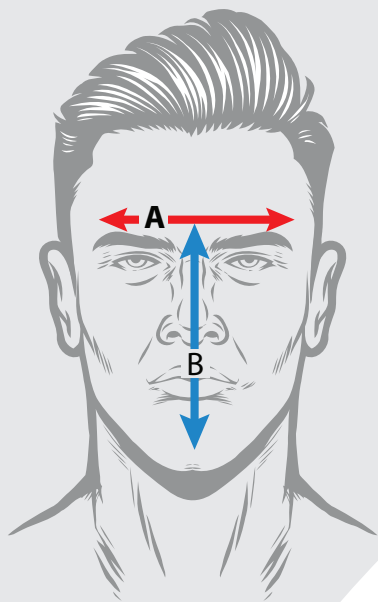

ADVANTAGES

- Superb Seal: Completely sealed to outside air penetration
- Higher Filtration Rating: Protects against 99.99% particles
- Integrated Eye Protection: Prevents infection/contamination through the eye
- Exceptional Ventilation: Large breathing area
- Superb Personal Comfort: Minimal skin pressure for extended wear
- Reusable Mask: Can be washed and disinfected. Easy filter replacement, packaged for safe disposal

ViriMASK™

ViriMASK™ SIZING

1. Measure the width of the forehead just above the supraorbital ridge (above the eyebrows). (A)
2. Measure the length of the face from line (A) above the eyebrows to the point just above chin (gingival line). (B)
 - If A is below 145 mm **OR** B is below 150 mm, use Medium.
 - If A is above 145 mm **AND** B is above 150 mm, use Large.
 - If A is below 130 mm **OR** B is below 130 mm, contact support (support@virimask.com) for advice.
